***A much more extensive range of***

***FRUIT, CITRUS & NUT TREES***

***are also in stock throughout the year***

***ORDERING SERVICE available 50% Deposit***

- **Bareroot trees must be kept moist AT ALL TIMES. This is why they are individually bagged ☺**
- We recommend mixing bags of **Active8 &/or Organic Garden Mix** into your soil at the time of planting and applying **Seasol** plant tonic, which reduces transplant shock, and encourages new roots to form.
- **Staking** using a soft or rubber tie may be required in windy areas to stabilise your trees while they establish.
- Mulch with **Organic Sugar Cane Mulch or Cypress Mulch**.
- And, apply **Organic Xtra** fertilizer in spring, summer and autumn for the continued health of your trees.
- If you have any questions please do not hesitate to ask any of our dedicated horticulturists for their help.

Enjoy Your Garden,  
*Meredith & the True Blue team*
